

Abdulaziz Alkathiri

Personal Portfolio Web Application

Project Overview

- 
- Purpose of the portfolio:
 - Showcase projects
 - Highlight skills
 - Professional online presence

Key Features

Responsive design

Dark/Light mode

Projects section with live links

Smooth navigation

Contact section

Technical Stack

- HTML5, CSS3, JavaScript
- TailwindCSS for styling
- GitHub Pages deployment
- AI Tools: ChatGPT, GitHub Copilot

A Snippet

The screenshot shows a web browser window displaying a portfolio website. The title bar reads "Abdulaziz Saud | Portfolio" and the address bar shows "127.0.0.1:5501/?". The page has a dark blue header with the name "Abdulaziz Saud" on the left and navigation links for "Home", "About", "Skills", "Projects", and "Contact" on the right. A moon icon indicates a dark mode theme. The main content area features a large image of a lighthouse at dusk. Overlaid on this image is a dark rectangular box containing the text "Welcome to My Portfolio" in white, bold, sans-serif font. Below this, a smaller text says "Welcome back, Aziz! Explore my projects and experiments." There is a form field with "Enter your name" placeholder text and a "Save" button. At the bottom of the page, there is a section titled "Visitor Info" with two lines of text: "You have visited this site 44 times." and "You have been on this page for 38 seconds." The footer contains the text "Random joke" followed by a truncated URL.
